NEW LOWER PRICING!

Now that we have been open a few months and the business is stabilizing (and we figured out the cash register!) we can adjust the pricing model...and save you money at the same time! Instead of the flat rate of \$6.00 per hour, we are now giving a discount on the 2nd hour and offering an All Day Pass for what you would have paid for 2 hours. Here is a breakdown of the changes:

	1 Hour	2 Hours	All Day Pass
One Child	\$6.00	\$10.00	\$12.00
Two Children	\$10.00	\$15.00	\$18.00

Children under 1 year pay the sibling rate, Special Twin rates and Partial 1/2 hours are available. Under 6 months is always free.

I hope these changes remove the need to “watch the clock” while your little ones play and will encourage you all to stay the day when those wet months creep up on us (although it seems that summer has passed us by this year!).

Of course, Monthly Memberships are still available if you are a frequent player!

8/14 & 8/28 - Thursday Family Night! 5-8pm

Tired of wondering where to take that Toddler in the evening? Me, too! I’m going to try out Family Nights at the Tot Spot on the 14th and 28th of August. If these are a hit, we’ll do them each Thursday! I know I get a little tired of Nate struggling to get out of his highchair on our dinner-out nights so I’m sure you guys are facing the same issues. Come and eat, let them play and nibble and meet some other local families, too! A special Admission rate of 8.00/child (siblings are 4.00) will cover the evening of play (and fresh baked cookies, too...)!

8/14 @ 11am- Cognitive and Behavioral Growth Workshop with Pamela K. Smith, LMFT

Pamela K. Smith, LMFT, is an educator and therapist from Kirkland, Washington. Come to the workshop and resource discovery group to discover how your child can grow using a brain based cognitive and behavioral growth and development methodology learning program tailored to your child's individual needs. This is an exciting opportunity to bring your child and your questions to develop an individual learning program that integrates into your child's life seamlessly and joyfully on a daily basis.

This kind of neuro-fitness allows your child to develop according to their greater potential because the exercises done daily work with your child's natural developmental stages and enhances learning capacity in a play-based and project-based methodology that mirrors the way your child learns best.

For more information about Pam call 425 269-8433, or visit her website at pamelaksmith.com.

8/18 @ 11am - Dr. Karen Preston & InfantSee presents A Conversation about Your Child's Vision

Have you had your child's eyes checked? I hadn't! As a matter of fact, no one even mentioned it to me...not even at the doc's office. Then I few local moms whose kids had vision problems which were (thankfully) diagnosed early and treated. I remember in the 2nd grade when I got my glasses and it seemed the whole world changed right before my eyes. I've asked Dr. Preston, a specialist from Northwest Pediatric Eye Care to come and chat with us about eye health.

8/22 & 8/23 - Holli Dunn is coming to the Café for Mini-Portrait Sessions!

Holli Dunn, the amazing photographer featured here at the cafe, will be hosting Mini-Portrait Sessions at the cafe on the 22nd & 23rd. This is a great opportunity to get high quality shots of your little one with one of the most talented photographers on the Eastside. You can check out her work at www.hollidunn.com or come by the café and see how amazing they are!

You can view more info on the available packages at: <http://hollidunn.com/blog/>

Mini-session pricing is offered for this event only and other discounts or coupons do not apply. Reservations are required for this event!

Best,
Kat Stremlau
